

# JUMBO

## SMART SERIES

These Batteries have Bigger Containers to store 30% more electrolyte so that you need to do water topping less frequently. Staxxa makes the spines by High Pressure 'Hadi' Casting Process at 100 bar. We make spines with low antimony lead alloy with selenium and tin to protect them from anodic corrosion.

### Features

- Longer Life - It provides twice the life as compared to the conventional batteries.
- Extensive Application- Suitable for all your power back up needs.
- Heat Resistant - High resistance to temperature variation.
- High Cyclic Application - Best used for frequent and prolonged power outages

## BATTERY SPECIFICATIONS

Model No.	Type	Capacity AH At C20 (27°C)	Volt	Warranty	Dimensions (mm)			Charging
					Length	Width	Hight	Amps
JSS- 15036ST	SHORT TUBULAR	150	12	36 Months(18+18)	535	280	322	15
